Ekus Energy has announced its first battery storage project in Japan, the 30MW / 120MWh Hirohara battery energy storage system (BESS) located in

Tokyo Gas Co Ltd (TYO:9531) and Okaya & Co have held a groundbreaking ceremony for a 25-MW/75-MWh energy storage facility in

With the establishment of a large number of clean energy power stations nationwide, there is an urgent need to establish long-duration energy storage stations to absorb the excess electricity ...

Pumped-Storage Hydropower Pumped-storage hydro (PSH) facilities are large-scale energy storage plants that use gravitational force to generate electricity. Water is pumped to a higher

Imagine if mountains could store electricity like a smartphone battery. In Japan, they kind of do--thanks to pumped storage power stations. These engineering marvels are critical for

Tokyo Electric Power Company Holdings, Inc. (TEPCO HD) and Toyota Motor Corporation (Toyota) have developed a stationary storage battery

Tokyo Asset Solution will develop battery storage starting with a 4.9MWh grid-scale project in Hachioji City, Tokyo, and a co-located 8.3MWh

The rise in distributed renewable energy generation creates a growing need to find viable solutions for energy storage to match energy demand and supply at any time. This paper evaluates the possibility

TEPCO HD and Toyota will evaluate the results of the verification project and work to develop storage battery systems with an eye toward

From battery chemistry to smart grid integration, Tokyo's energy storage success story offers valuable lessons

Tokio Pool Energy Storage Power

for cities worldwide. As storage costs continue falling (42% since 2018), these technologies

Tokyo energy storage power generation project It is Japan's first fund exclusively for energy storage that invests in, develop and operate new energy storage plants, including those equipped with renewable

For Eku Energy, and perhaps others, like Pacifico Energy, which delivered Japan's first two BESS projects trading in the wholesale power
